Plan of work, version 1.0

Technische informatica, TU/e

Eindhoven, October 5, 2009

Groep 3:

Etienne van Delden (0618959)

Tim Hermans (0664881)

Tom van der Hoek (0655570)

Janôt Sijen (0652478)

Robin Wolffensperger (0612853)

Deliverables

We split up the work on the different documents. We have internal deadlines, on which we hope to complete the deliverables and to stay ahead on schedule.
We have decided to implement the first algorithm, the "Closed" algorithm, together.
For the other three algorithms we divide the group in two subgroups.

Subject	Soft Deadline	Hard deadline	Place
Plan of action	16 September	18 september	Tutor
Closed Algorithm	23 September		10.46
Open Algorithm	7 October		10.46
Intersection Algorithm	7 October		10.46
2-to-5 Algorithm	14 October		10.46
Conceptual report	19 October	9 November	Tutor / K. Buchin (at HG 7.22)
Code (soft deadline)	23 November	7 December	10.46
Final report (soft deadline)	2 December	11 December	10.46 / K. Buchin (at HG 7.22)
Presentation	9 December		10.46
Final meeting	14 December		AUD 10

Task division

We have assigned different people to be responsible that work on that task is done correctly.
